

God has crafted each of us with our own unique talents and capabilities.

As disciples God continues to shape us to become more and more like Jesus in order that we may use our gifts to serve our neighbors in God's kingdom.

This five-week guide will introduce your congregation to the concept of being crafted by God and equipped to carry out Christ's mission in the world. It will help you grow together through discussion questions, activities, and prayer.

Crafted is one of a series of five discussion guides in the Disciples program—a comprehensive multiyear program of faith formation for adults that includes worship resources and daily devotional readings.
